

CLASSIC PENDANT

Black and White Bone Porcelain

The Classic pendant was the first product in the NUD Collection portfolio. The timeless design of this bone porcelain lamp holder was a great success from the start. Since then it has developed into the most sold product in the collection.

The Classic socket with its clean and neat shape allows the textile cable to be in focus. Its simple look makes it very usable for installations.

The Classic lamp holder is available in shiny white bone porcelain or matt black finish.

Combine pendant with Ceiling cup or Wall Plug. Globe not included.
